HEREBY DECREES

To publish a selection announcement for the awarding of n° 1 research visiting fellowship as advanced scholar at the Department of Political Science, Law, and International Studies under the supervision of Prof. Alessandra Pietrobon, Research Project Supervisor.

The research fellowship is addressed to professors or researchers coming from international academic institution.

The research fellowship shall last 2 months.

The research fellowship shall be for a total gross amount of € 8.000,00, financed by ESF DGR n. 11/2018 and will be paid in deferred monthly instalments.

The Research Fellowship Holder must carry out the following research activity:

The senior visiting fellow will carry out a specific research in Veneto for two months, aimed at ensuring the success of the project and at the same time supporting and leading the research fellow. The primary objective of the intervention is the transfer of know-how and specific skills from the visiting Fellow to the research Fellow, and therefore to the partner companies. This is the added value that it will bring to the project. The senior visiting fellow shall come from an international university and possess a long-time experience in the field of European Union law, in particular competition law, and energy law. Besides, an energy strategy at national and regional level cannot ignore the evolution taking place in Europe and the challenges that the EU and its Member States have to face. The Fellow will pay particular attention to the analysis of the rules governing access to the "dispatching services market". The partner companies have in fact already identified this as an area for which it is necessary to verify the compatibility/adequacy of the Italian domestic legislation with respect to European Union law.

The period of stay of the visiting fellow both at the partner companies and the University of Padua will facilitate the joint research work, the exchange of knowledge, the analysis of good practices and the deepening of the results achieved in a comparative perspective, with particular regard to the legal order of the State of origin of the visiting Fellow. In perspective, it will make possible the development of new shared projects. It must be emphasized that the contribution to the project of the visiting Fellow will not be time wise limited to the two months of the scholarship. The mutual exchange, the transfer of knowledge between the research Fellow and the visiting Fellow will characterize the whole project, even in itinere.
