# DECLARATION OF THESIS AUTHENTICITY AND TRANSPARENCY IN THE USE OF ARTIFICIAL INTELLIGENCE

I, the undersigned,

**Surname and first name** _____
**Student ID number** _____
**Degree Programme** _____
**Thesis title** _____

being aware of the civil, criminal and disciplinary liability arising from false declarations, as well as of the consequences laid down by current legislation and the regulations of the University of Padua,

## HEREBY DECLARE

☐ that I have written the thesis personally and independently; that I have not relied, either wholly or partly, on third parties to write the thesis, whether free of charge or for payment; and that I have completed the thesis through my own personal engagement with the chosen topic, in compliance with the rules governing copyright and intellectual property;
☐ that I have not used generative AI tools in the preparation of this thesis;
**or**
☐ that, in agreement with my thesis supervisor, I have used generative AI tools in the preparation of this thesis for the following purposes (please specify):
☐ **literature review:** to identify relevant scientific articles, generate search strings and organise the bibliography. All references were subsequently verified using traditional academic databases (e.g. Web of Science, Scopus and Google Scholar);
☐ grammar and spelling correction;
☐ assistance in translating texts for the consultation of foreign-language sources;
☐ support in generating or checking code for statistical processing/data analysis. All results were independently checked and validated;
☐ assistance in formatting the bibliography, tables or other graphic elements in accordance with the required editorial guidelines;
☐ other (please specify):
_____
☐ that I have not used Artificial Intelligence (AI) tools as a substitute for my own work of reflection and original creation.

If applicable, please specify which AI tools were used (name and version): _____
