Activisation

We have been continuously active for over 300 years

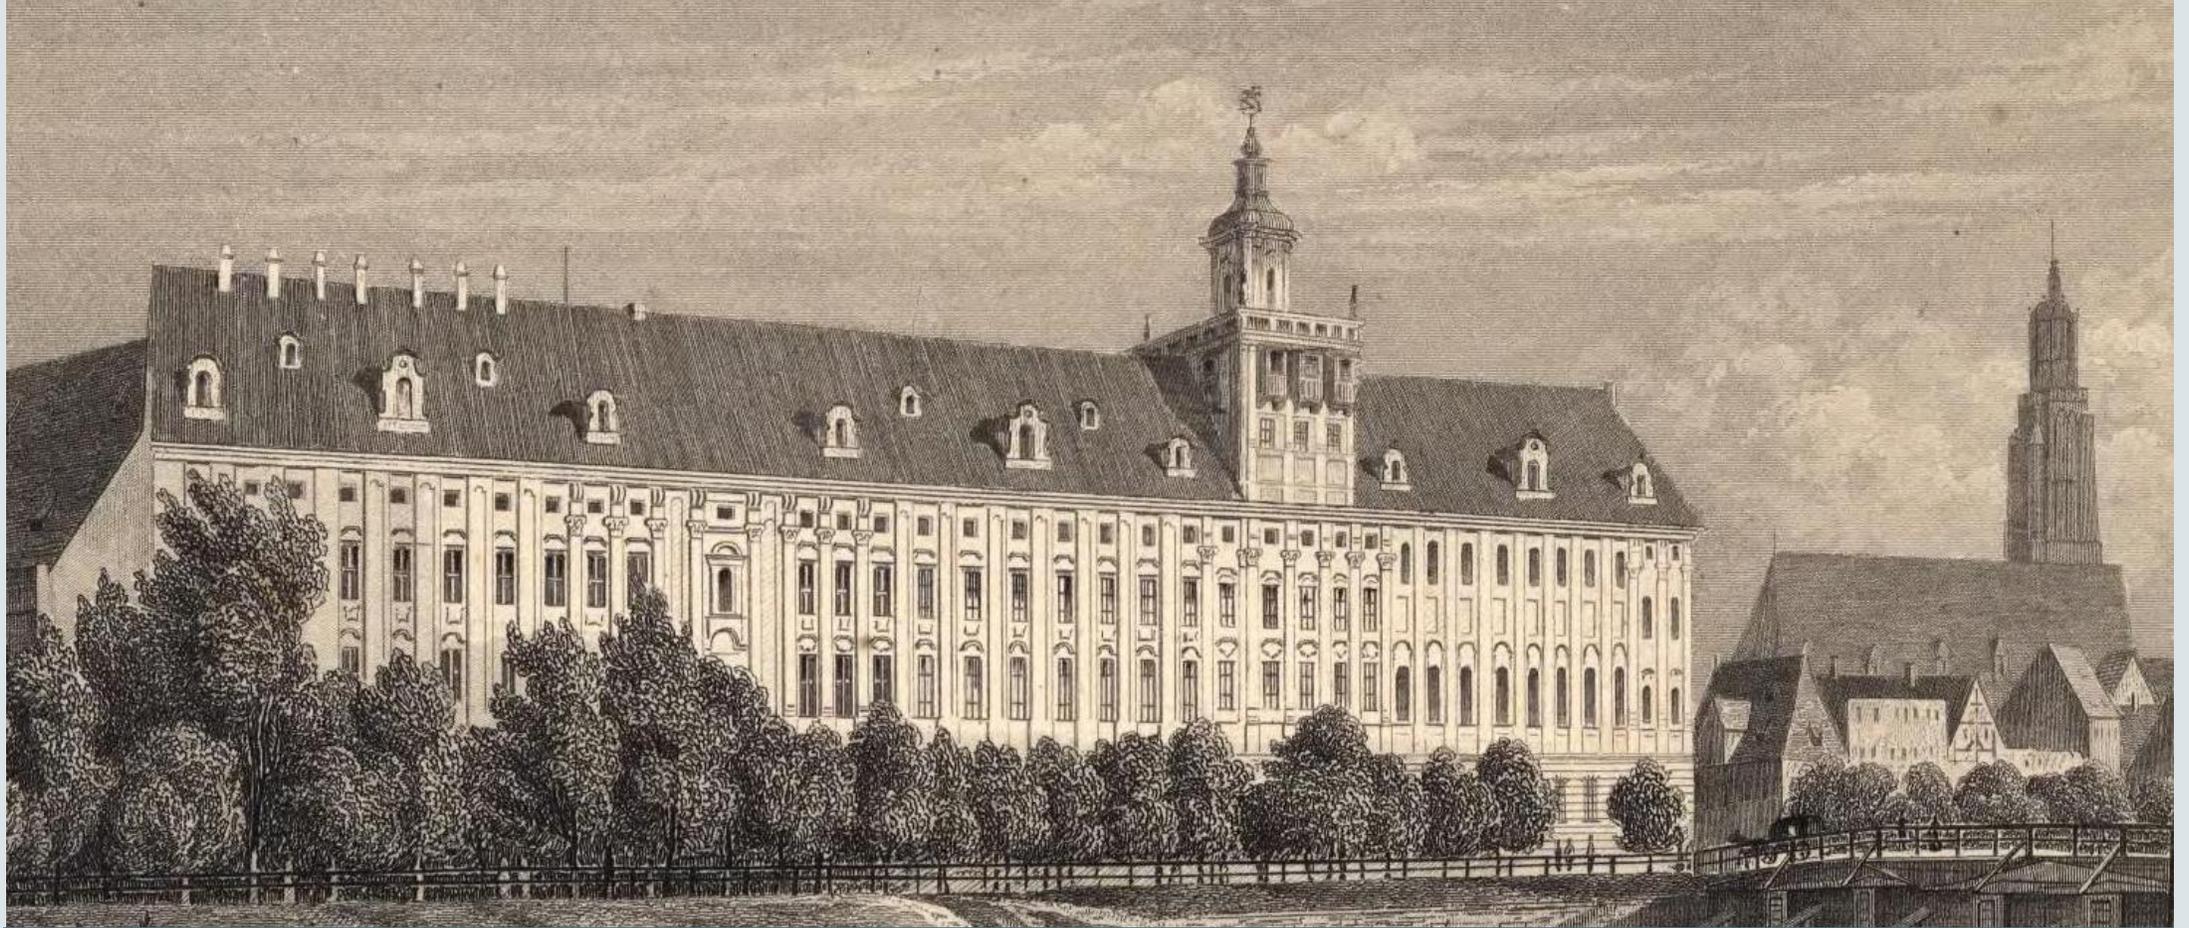

We are one of the oldest universities in Central Europe

Our university was founded in 1702 by Emperor Leopold I Habsburg. It was named the Leopoldina in his honour. The first academic year began on 15 November, on the Emperor's nameday. The University then consisted of two faculties: of Catholic theology and of philosophy.

In the 18th and the 19th century
we grow and become a state university

In 1776 the University became a state higher school. In 1811 it was merged with the Evangelical Viadrina University of Frankfurt (Oder) and the number of faculties grew to five and included: Catholic theology, Protestant theology, law, medicine, and philosophy.

After the Second World War we introduce Polish traditions

In 1945 a group of scientists, mainly from Lviv, arrived to Wrocław. From the ruins of the German university they created the foundations of a Polish academic school, from which later emerged the University of Wrocław, the Wrocław University of Science and Technology, the University of Environmental and Life Sciences, and the Medical University.

UWr

COMMUNITY

25 500 students

including

1 400 foreigners

700 studying in English

3500 employees

including

2000 academic teachers

465 with full professorship

UWr

by the numbers

PROGRAMMES

89 programmes

including

24 in English

244 majors and specialisations

2 interdisciplinary and individual programmes

286 departments

161 centres

170 student research groups

27 chairs

22 laboratories

36 libraries

10 faculties

2 inter-faculty units

33 institutes

STRUCTURE

Faculty of
Law, Administration and
Economics

Faculty of
Philology

Faculty of
Historical and
Pedagogical Sciences

Faculty of
Mathematics and
Computer Science

Faculty of
Physics and
Astronomy

Faculty of
Earth Sciences and
Environmental Management

Faculties

Faculty of
Social Sciences

Faculty of
Biotechnology

Faculty of
Chemistry

Faculty of
Biological Sciences

Our university is housed
in **50** buildings

including modern complexes and unique monuments

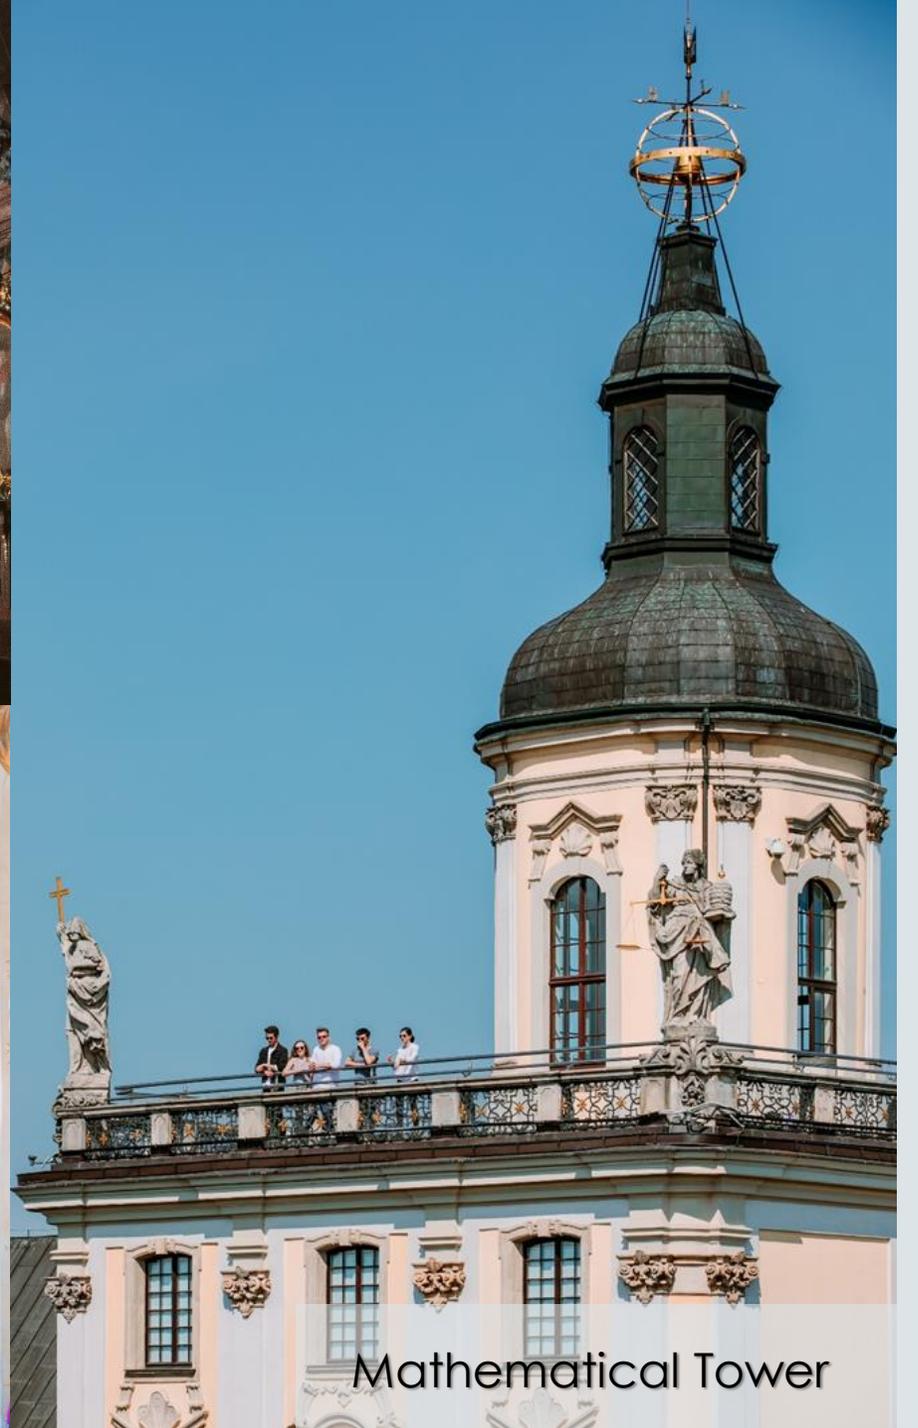

BAROQUE The architecture
MAIN of the edifice decorated with unique
BUILDING sculptures and paintings
is one of the most precious
Baroque monuments in Central
Europe
from 1728

Aula Leopoldina

Oratorium Marianum

Mathematical Tower

MUSEUM OF THE UNIVERSITY OF WROCŁAW

University's history

WŁADYSŁAW RYDZEWSKI NATURAL HISTORY MUSEUM

rich botanical and zoological collections

MUSEUM OF MAN

human skeleton, burial
and the origin and evolution
of the human species

KAZIMIERZ MAŚLANKIEWICZ MINERALOGICAL MUSEUM

30 000 minerals, gemstones
and meteorites from the Lower
Silesia, Poland and the world

HENRYK TEISSEYRE GEOLOGICAL MUSEUM

20 000 rocks and plant
and animal fossils

Botanical Garden

We have created a place which is a teaching and research centre as well as a recreational space for Wrocław residents

Among others,
we specialise in
ivy, wetland and aquatic plant
cultivation and alpine gardens

Arboretum in Wojstawice

We cultivate over
8000 plants
especially rhododendrons,
daylilies and boxes

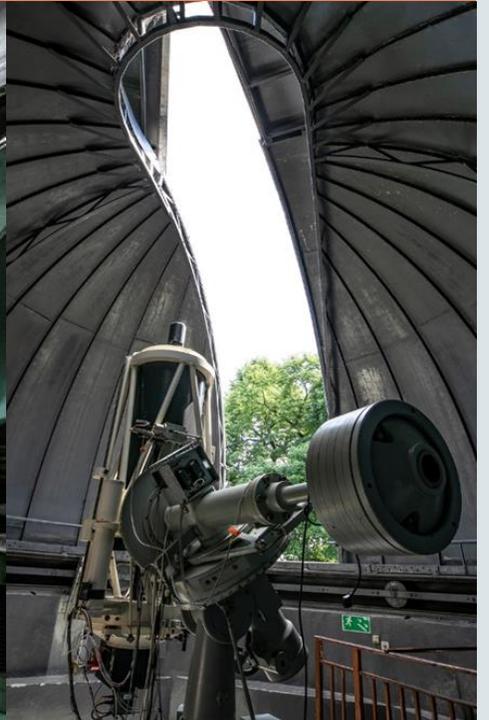

2 observatories

Meteorological and Climatological Observatory in Wrocław

modern systems collecting meteorological, radiation and
atmospheric data and measuring air quality

Astronomical Observatory in Białków

the largest coronagraph in the world with a 17-ton sliding roof

3 ecological stations

Ornithological Station in Ruda Milicka

observations of animals of the
Milicz Ponds, one of the most
valuable bird reserves in
Poland

Ecological Station „Storczyk” in Karpacz

field research of natural habitats
of the Sudety Mountains

S. Baranowski Polar Station on Spitsbergen

base for climatological, glaciological,
geomorphological and geological
research on the glacier

We conduct research

In the last year we have
completed
over
430 research
projects
both international and
domestic

1 400 foreign students
pursue their education at UWr

the largest numbers from:
Ukraine, Belarus, India, Turkey,
Spain, Uzbekistan, Germany,
Azerbaijan, France and China

As the only University
in Poland

we are a member of
the International Students
Exchange Programme (ISEP)

We teach Polish
at the UWr School of the Polish
Language and Culture for
Foreigners

We sing
in the International Students
Orchestra

We play football
in FC International UWr

We cooperate
with international
community

We communicate science

in the city

River Odra Day

in the region

Lower Silesian Science Festival

at night

Night of Laboratories, Long Night of Museums,
Night of Humanists, Night of Biologists

having fun

Doctor Labo, or the scientific cabaret

organising regular lectures and workshops

Studium Generale, Wrocław Mathematical Meetings, Play and Learn at Max Born Street, Meetings at the Nehring Hall, Secrets of the Earth and the Universe, physics lectures, and many more
