Memory and Media in the Western Balkans: Reporting & Storytelling

This **18hrs** Lab aims at providing important insights on the everyday tasks of experts working for the think-tank **Osservatorio Balcani Caucaso Transeuropa (OBCT)** at the *Centro per la Cooperazione Internazionale (CCI)* in Trento (Italy). It will be focused on **memory and media**, as two of the most relevant issues in the current analysis of politics and society in Southeast Europe. Students will be provided with **theoretical and practical tools** and will be required to test them analyzing specific case studies from various perspectives and with different approaches. At the end of the Laboratory, they will learn how to write a **scientific report** and how to turn this report into a **video-clip** or a **video-podcast**. High quality reports and the videoclips will be published on the OBCT website.
